### Summary of Institution Mission and Student Achievement

Behavioral Science Centers dba; Hypnosis Motivation Institute (HMI) is a non-profit, 501c3 educational institution featuring professional hypnotherapy training, private hypnotherapy services and free self-improvement classes to the public. HMI's College and Clinic is dedicated to the mission of exploring within ourselves and others how our subconscious mind can influence our behavior, affect the events of our lives, and empower us to achieve our dreams and goals.

Our philosophy is based on the belief that the subconscious mind is a goal machine, dedicated and driven for the fulfillment of a programmed path. Our primary tenet is that all of the events of our lives, including "luck", both good and bad, is a manifestation of the energy that emanates from our subconscious mind as it continually strives to fulfill the agenda for which it is programmed.

Through research, education and the clinical application of this conviction, HMI aspires to better the world by fostering a greater awareness of these principles and developing the means that will enable mankind to influence the programming of their subconscious minds to be more congruous with their conscious desires.
